## Questions to Ask Before Your Hysterectomy Procedure:

- How long will it take me to recover?
- When will I be able to leave the hospital?
- Will my ovaries or any reproductive organs other than my uterus be removed?
- When can I resume normal activities, including school, work, exercise, sexual activity, and recreation?
- What type of hysterectomy will I have?
- Is any type of minimally invasive procedure appropriate for my situation?
- Which organs will be removed?
- Exactly where, and how big will the incisions be?
- Is this the least invasive procedure available for my condition?
- How many of these procedures have you performed in the past 12 months?
